Project write up guidelines

- Write up a short conference paper (~5 pages).
- Tell us what you did, what worked, what didn't, and why (what you learned).
- Make sure that your project and your write up shows clearly the relation to the themes (questions, tools) of this class!
- If you're working together…
  - Your project should be more substantial (~10 pages).
  - Make it clear what each person contributed and make sure each is significant.
  - Each person should contribute to the write up, and turn it in.
